Re: Ohio Rubber Company
Willoughby, Ohio
March Report

Gentlemen:

Work has halted at the Ohio Rubber Company's waste treatment construction project. The contractors have completed the installation of all received equipment including the waste treatment facility provided by Norweco Precast Systems along with all underground piping. This system is ready to run.

The balance of the equipment is scheduled to start arriving in mid-May and will continue to arrive through June. Construction is expected to restart some time in late May depending on the arrival of equipment.

Respectfully yours,

FRANK A. THOMAS & ASSOCIATES, INC.

James R. Gills
